Education & Certifications

Wayne County Community College District Cybersecurity, Associate Degree	In Progress
CompTIA Security+ (SY0-701) CompTIA	Pursuing
Emergency Medical Technician (EMT)	Certified
FEMA ICS-100 / 200 / 300 / 400 / 700 / 800	Completed
Emergency Vehicle Operator Course (EVOC) CPR / First Aid	Completed

Technical Knowledge

- Active Directory: users, groups, RBAC, account lifecycle, password resets, enable/disable, delegated permissions, and least privilege.
- Microsoft 365 / Entra ID concepts: mailbox delegation, SSO, MFA, authentication vs. authorization, admin roles, Azure RBAC, and hybrid identity.
- Windows support: RDP, PowerShell, ticket documentation, troubleshooting, escalation, access reviews, and end-user support workflows.

Projects

Identity & Access Lifecycle Lab | Active Directory, PowerShell, Microsoft 365, Entra ID

GitHub: github.com/duncanw12/ad-identity-lifecycle-lab

- Built a Windows Server 2025 lab domain and automated CSV-driven onboarding, password resets, access reviews, and offboarding with PowerShell and audit logging.
- Designed AGDLP role-based access for Schedules/Finance shares and delegated Helpdesk reset/unlock rights; verified least privilege through successful reset and denied disable tests.
- Simulated and documented RDP firewall troubleshooting plus M365/Entra workflows for mailbox delegation, MFA, SSO, admin roles, and Azure RBAC.

Experience

Emergency Medical Technician - 911 Operations	05/2025 - 10/2026
AmeriPro EMS of Michigan LLC Detroit, MI	
• Provided front-line support in a high-volume healthcare environment, resolving requests within scope and escalating complex concerns appropriately. • Used electronic healthcare documentation and communication systems to enter, update, verify, and transmit time-sensitive information while maintaining accuracy and confidentiality. • Created and maintained detailed electronic incident records for 2,000+ emergency calls, documenting actions, outcomes, handoffs, and escalations. • Applied structured troubleshooting by identifying problems, gathering relevant information, ruling out immediate causes, and coordinating resolution across teams. • Maintained HIPAA-compliant handling of sensitive information across multiple healthcare systems and organizations.	
Emergency Medical Technician	08/2024 - 05/2025
Hart Medical EMS Michigan	
• Provided customer-facing healthcare support, maintained electronic records, verified information for completeness, prioritized competing requests, and escalated advanced concerns. • Coordinated with hospital staff, dispatch, public-safety agencies, patients, and internal teams to maintain accurate information exchange and continuity of service.	
Security Officer	01/2024 - 06/2024
Lagarda Security Michigan	
• Responded to employee and visitor requests, monitored access-related concerns, documented incidents, protected sensitive information, and escalated exceptions according to procedure.
